

## About Us

EscherTec AG, founded in 1999, is an independent Swiss engineering and consulting firm specializing in energy generation and efficiency. Our core team in Zurich's Technopark and a global network of over 30 experts collaborate to deliver clean, smart energy solutions.

## Who We Serve

- **Cities, Municipalities, and Real Estate Developers** seeking efficient, sustainable energy systems
- **Original Equipment Manufacturers (OEMs)** needing turbomachinery design for steam, gas, or aero turbines
- **Power Plant Operators** requiring consulting, design, and optimization for fossil, hydro, and renewable power plants

## What We Do

- **Smart Energy Solutions:** We plan and implement scalable solutions for buildings, districts, and cities, integrating renewable sources and optimizing thermodynamic processes.
- **OEM Support:** Our international network of experts delivers specialized turbomachinery design and engineering services.
- **Power Plant Consulting:** From planning and construction to operation and maintenance, we help optimize performance across all power plant types.

**EscherTec AG**
